Wednesday 15 May 2024: Everrati, the leading technology company specialising in redefining and futureproofing automotive icons through cutting-edge electric vehicle (EV) powertrains, is delighted to announce a strategic partnership with luxury hypercar manufacturer and mobility solutions provider W Motors.

Based in Dubai UAE, W Motors is the Middle East's foremost high-performance vehicle maker, its most famous models include the Lykan HyperSport, the Fenyr SuperSport and the security and defense police vehicles named GHIATH. The Company also provides turnkey mobility solutions through its Special Projects Division.

By joining forces with Everrati, the two companies will bring together their considerable state-of-the-art vehicle design and engineering expertise to further the development and manufacturing of bespoke, cutting-edge electric vehicles across multiple sectors in the Middle East and beyond. The collaboration will see W Motors become Everrati's manufacturing partner for the region, enabling the production of its electrified portfolio to take place in Dubai, expanding Everrati's global footprint, enabling it to meet soaring international demand.

In turn Everrati, through its Powered by Everrati B2B division, will develop and supply advanced electric powertrain solutions for W Motors for upcoming zero emission vehicles. Thanks to its unique blend of proprietary EV technology combined with world-leading in-house expertise, Powered by Everrati enables B2B clients to rapidly bring almost any type of specialist electric vehicle to life, leveraging proven, flexible, scalable premium electric powertrain and software technologies.

Everrati will also establish an Expertise Centre in the Middle East region, located within W Motors' new state-of-the-art automotive factory in Dubai Silicon Oasis, UAE and be the lead electric powertrain supplier for W Motors' upcoming EV programme, which will realise multiple green vehicles, outside of the luxury hypercar space as well as power W Motors most awaited electric supercar.

Everrati Founder and CEO, Justin Lunny, said: *"I am absolutely delighted to announce this strategic partnership with W Motors, a company that has not only rapidly established itself as a leading luxury hypercar manufacturer, but also a pioneer in sustainable bespoke mobility solutions. This agreement will enable Everrati to expand our footprint in the Middle East – a key market for our redefined and electrified icons – while at the same time allowing W Motors to leverage our in-house developed, OEM-grade advanced electric powertrain technologies for its future vehicles."*

W Motors Chairman, Founder & CEO, Ralph R. Debbas said: *"For more than a decade now, W Motors has garnered a reputation as a leader in the design, development, engineering and manufacturing of the world's most luxurious and desirable hypercars. Such vehicles are in our blood and fuel our collective passion, but we also have one eye firmly on the future of mobility."*

“Everrati’s electrified icons and its proprietary powertrains set new standards – we are proud to partner with such a trailblazing brand, playing a key role in its further expansion in the Middle East and beyond, at the same time taking advantage of its technical expertise to support W Motors’ growth in the creation of bespoke electric vehicles, across both the luxury and sustainable mobility sectors. This partnership will also give us an opportunity to explore electric vehicle options for the GHIATH Program, developed in partnership with Dubai Police and that falls under our security and defense division.”

Everrati’s approach to sustainable luxury sees the integration of a bespoke electric powertrain integration carried out with meticulous attention to detail and craftsmanship, ensuring that every vehicle produced is a masterpiece of design and engineering.

From its global headquarters in Oxfordshire, UK, Everrati uses OEM-grade processes, best-in-class suppliers and partners and skilled engineering artisans, combined with traditional hand-built techniques and modern technology, to create exceptional and sustainable automotive rolling works of art that can be enjoyed today and by generations to come.

Redefined and electrified versions of the company’s Porsche 911 (964) Coupe, Targa, Cabriolet, are handbuilt to the highest standards by Everrati’s technical partner, Aria Group in Irvine, California. The company’s range of automotive icons also including the Range Rover Classic, Land Rover Defender, Land Rover Series, GT40, and Mercedes-Benz W113 SL ‘Pagoda’.

About W Motors Automotive Group Holding Limited

Founded in 2012, W Motors is the first manufacturer of high-performance luxury sports cars in the Middle East. Based in Dubai, the fully integrated company capabilities span automotive design, research & development, through to technology and engineering, as well as consultancy and manufacturing under the Special Projects Division.

Led by Founder and CEO Ralph Debbas, W Motors is the creative force behind some of the most exclusive and technologically advanced vehicles available in the market today.

Its first hypercar was the iconic Lykan HyperSport, which catapulted the company to international stardom when it took centre stage as a hero car in Universal Studios’ *Furious 7* movie. Its most recent hypercar launch was the Fenyr SuperSport, a limited edition with a production run of 110 units.

The company also created the world’s most advanced security vehicle for Dubai Police the GHIATH Smart Patrol part of its Special Projects Division. The GHIATH Smart Patrol represents a radical departure from classic security vehicle development and ushers in a new era of innovation-led high-tech defense and security capabilities.

In 2024, W Motors will open its state-of-the-art automotive factory in Dubai UAE to accommodate the production of all current and future models, including electric and autonomous vehicles, in line with the UAE Net Zero by 2050 Strategic Initiative.

About Powered by Everrati

Delivered by a team of highly-skilled industry experts, utilising the latest Tier 1 components and technology, Powered by Everrati delivers the most appropriate powertrain solution to suit the requirement of the customer – from initial concept and feasibility study through to scaleable low volume production. Powered by Everrati supercedes Everrati Advanced Technologies, the previous brand name for Everrati’s B2B division.

About Everrati™

Everrati™ was founded in 2019 by British entrepreneur Justin Lunny. A car enthusiast from an early age, he became increasingly conscious of the wider impact combustion engines have on the environment. Everrati was launched with the vision of restoring iconic models from an earlier era and converting them to electric propulsion.

Everrati's model line-up consists of electric versions of the Porsche 911 (964) Coupe, Targa, Cabriolet in Pure, Signature, Gulf Signature and RSR-inspired Editions, ST-inspired G-Series, Land Rover Series IIA, Range Rover Classic, Land Rover Defender, GT40 in partnership with Superformance including officially licenced Gulf Edition and Mercedes-Benz W113 SL 'Pagoda'. Everrati™ designs, develops and builds its cars from a bespoke facility in Upper Heyford, Oxfordshire.

Everrati™ restores and modifies existing classic and iconic cars for its customers to enable them to be used and enjoyed in a low carbon world. Everrati™ does not manufacture vehicles. Everrati™ is not sponsored, associated, approved, endorsed, nor, in any way, affiliated with the manufacturers of the cars they restore. All brand names, logos and crests along with any other products mentioned are the trademarks of their respective holders. Any mention of trademarked names or other marks is for the purpose of reference only.
