5th June 2024: Everrati, creator of the world's most iconic, sustainable luxury electric cars, redefined and futureproofed with cutting-edge zero emission powertrains, has announced an exclusive partnership with premium home charging provider, Andersen EV.

The collaboration is set to offer Everrati customers a unique opportunity to enhance their EV experience which will see all Everrati customers, both current and prospective, being eligible to receive an Andersen EV unit. The arrangement underscores the shared commitment of both companies to deliver exceptional quality, unparalleled service, innovation and bespoke solutions, ultimately enabling customers to lead a sustainable yet luxurious lifestyle.

Everrati Founder and CEO, Justin Lunny, said: *"We are excited to partner with Andersen EV, a luxury-focused brand that shares our dedication to quality and bespoke solutions. This collaboration offers our customers not just an exceptional electric vehicle but also the infrastructure to support it at home. With Andersen EV's unique and customisable charging units, our customers can enjoy a luxurious, seamless charging experience and a sustainable lifestyle, complementing the elegance of their Everrati."*

Andersen EV is known for redefining the EV experience, emphasising that electric vehicles represent more than just a new way to drive—they are a new way to live. The company's bespoke home EV chargers are designed for individuals who value their home charger as much as their car. Each Andersen charger is crafted to order in the UK, using materials of the highest quality and featuring over 240 customisable design options to match any home, environment, or vehicle colour.

David Martell, CEO of Andersen EV, added: *"As two brands with quality and design at their heart, we are delighted to announce this partnership between Andersen and Everrati. By combining Andersen's design-led charging technology with Everrati's redefined classic cars, we are setting a new standard for performance, design and sustainability, ensuring that our customers experience the pinnacle of luxury while contributing to a greener future."*

This partnership marks a significant step forward in delivering a holistic luxury EV experience for Everrati customers, ensuring that their vehicles are supported by the best in-home charging solutions.

Everrati's growing portfolio of redefined automotive icons includes electric versions of the Porsche 911 (964) Coupe, Targa, Cabriolet, RSR-inspired edition, ST-inspired G-Series, Range Rover Classic, Land Rover Defender, Land Rover Series, GT40, and Mercedes-Benz W113 SL Pagoda.

The Andersen A2 and A3 home EV chargers combine smart technology with genuine craftsmanship, offering unrivalled luxury and functionality. The A3 model introduces advanced features such as solar energy management, allowing users to directly manage the solar energy generated from home panels and redistribute it to power their charging sessions. It also incorporates an updated version of the A2's user interface with a more intuitive LED status indication, a presence sensor, a convenience light located on the underside of the unit, and a market-leading seven-year warranty.

About Everrati™

Everrati™ was founded in 2019 by British entrepreneur Justin Lunny. A car enthusiast from an early age, he became increasingly conscious of the wider impact combustion engines have on the environment. Everrati was launched with the vision of restoring iconic models from an earlier era and converting them to electric propulsion.

Everrati's model line-up consists of electric versions of the Porsche 911 (964) Coupe, Targa, Cabriolet in Pure, Signature, Gulf Signature and RSR-inspired Editions, ST-inspired G-Series, Land Rover Series IIA, Range Rover Classic, Land Rover Defender, GT40 in partnership with Superformance including officially licenced Gulf Edition and Mercedes-Benz W113 SL 'Pagoda'.

Everrati™ designs, develops and builds its cars from a bespoke facility in Upper Heyford, Oxfordshire. Everrati™ restores and modifies existing classic and iconic cars for its customers to enable them to be used and enjoyed in a low carbon world. Everrati™ does not manufacture vehicles. Everrati™ is not sponsored, associated, approved, endorsed, nor, in any way, affiliated with the manufacturers of the cars they restore. All brand names, logos and crests along with any other products mentioned are the trademarks of their respective holders. Any mention of trademarked names or other marks is for the purpose of reference only.

About Andersen EV

Andersen EV was acquired by EVIOS Plc in October 2022. The brand seeks to redefine the EV experience. EVs are more than a new way to drive; they are a new way to live. Andersen EV creates unique bespoke home EV chargers for people who love their home as much as their car.

The A2 and A3 are home EV chargers which match smart technology with genuine craftsmanship. Each Andersen charge point is made to order in the UK using materials of the highest quality. With over 240 customisable design features to match any home, any environment or the colour of your car, Andersen EV offers unrivalled luxury. For more information, visit <https://andersen-ev.com>
