invite you to the launch of

## BLUEBIRD REVIVAL

Rich in heritage, Bluebird Chelsea's site opened its doors in 1923 as the Bluebird Motor Company and was Europe's largest motor car facility, alongside the pioneering creator of the 1964 land speed record holder, the Blue Bird car. Since then, Bluebird Chelsea has evolved into the institution it is today but has never forgotten its roots.

To celebrate this legacy, and with a nod to the timely Goodwood Revival, Bluebird Chelsea is partnering with Everatti™, pioneers of electric classic car restoration, re-engineering cars already adored and admired into clean-air vehicles.

Join us for an evening of celebration, toasting the past and future of the motor world, as we showcase Bluebird Chelsea's limited edition menu and a chance to view an Everatti™ classic, the Mercedes-Benz W113 SL "Pagoda" on the terrace.

THURSDAY 5TH SEPTEMBER | 6PM - 9PM

BLUEBIRD CHELSEA, 350 KING'S RD, LONDON SW3 5UU
